

Horsham MP Met Constituents at Act Now, Change Forever Mass Lobby in Westminster

Over 5,000 people from across the UK gathered in Westminster, on 9th July 2025, for The Climate Coalition's [Act Now, Change Forever](#) Mass Lobby – one of the biggest moments for climate and nature this year, and the largest mass lobby of the decade!

In the midst of a very busy day, Horsham MP, John Milne, took time out to chat with Horsham constituents in Westminster Hall. Horsham Eco Churches, the WI, MP Watch and Christian Climate Action were represented, together with independent residents. Our very positive conversations included supporting women, making polluters pay, the fallacies of carbon capture and storage, sustainable aviation fuel and honesty in politics.

We were very pleased to hear that our MP continues to support the Climate and Nature Bill and has already signed the Stop Rosebank Pledge.

Horsham MP, John Milne, met Horsham constituents at the Mass Lobby in Westminster Hall, on 9th July 2025

[Horsham Eco Churches](#) representative, Karen Park, explained that eco churches are working towards Net Zero Carbon by 2030, Christians are actively divesting from fossil fuel companies and prioritising investments in climate solutions. More than half of the Horsham Churches Together churches have already registered with the [Eco Church](#) award scheme, 8 have achieved a Bronze award, 2 silver awards and St Mark's Church in Holbrook, is progressing well towards a Gold Award.

Christians are calling on our MPs to deliver vital funding to communities hit hardest by climate change, here and around the world, to make polluters pay, support proper taxation of fossil fuel companies, highly polluting activities, and the super-rich, and use this income to reverse aid cuts and fund climate adaptation and mitigation.

As 48% of homes in Horsham are poorly insulated, we discussed how upgrading these would save money and reduce carbon emissions, and the increasing difficulties faced by Horsham residents during extreme heat, particularly for those living in flats with windows only on one side of the building. Further information was provided in the [Act Now Change Forever Christian campaign brief](#) and [How Climate action will help people in Horsham](#) with 1,833 poorly insulated homes, 56 neighbourhoods with unhealthy air and 8,806 hours of sewage spills in 2024.

Over 50 people attended, Christian Climate Action's prayer vigil outside the gates of Westminster. The nearby QEII Centre was the Lobby Hub for networking, talks and stalls including: Operation Noah, Tearfund, Oxfam, Christian Aid, Green Christian, Quakers, Faith for the Climate, Eco Judaism, EcoSikh UK, Brahma Kumaris Environment Initiative, Co-op, National Trust, CPRE, WI, WaterAid, Greenpeace, Debt Justice, WWF and other wildlife groups.

Horsham Eco Churches stall at [Sussex Green Hub](#) on Saturday 26 July 10am – 2.30pm, at United Reformed Church, Horsham, will include a display of information gathered from many of these organisations.

The Mass Lobby was an amazing network of over 140 organisations, united in calling for action on climate and nature. Over 200 MPs met their constituents, calling on them to take action on the issues that matter most:

- ✔ Fair support for communities hit hardest by the climate crisis
- ✔ Warm homes and green jobs
- ✔ Nature restored and protected for future generations

Karen Park, Eco Church Lead for Horsham Churches Together
